## **Jeep® Brand Reveals Image of First-Ever Fully Electric Jeep SUV**

*Today, during Stellantis' Dare Forward 2030 strategic plan presentation, Carlos Tavares, the chief executive officer (CEO) of Stellantis, revealed images of the first-ever 100% battery-electric Jeep SUV, as the brand continues its global initiatives toward the full electrification of its SUV portfolio. This new fully electric Jeep vehicle will be launched early next year, expanding the brand reach and taking the next step to the achievement of Jeep brand's vision of Zero Emission Freedom. More information on the Jeep BEV will be released in the coming months.*
