MEYLE parts for passenger cars

The safety and operational reliability of a motor vehicle hinge on the quality and durability of its components. The MEYLE range of products features a wide variety of components. Spare parts from A to Z, from Alfa Romeo to Volvo, from minicars to top-of-the-range luxury models.

Steering & suspension

Control arms
 Stabilizer links
 Tie rod assemblies
 and individual parts
 Ball joints
 Wheel bearing kits
 Wheel hubs

Brakes

Brake discs and
 platinum discs
 Brake pad sets
 Brake drums
 Brake hoses
 Brake shoe kits
 Wheel cylinders
 Wear sensors

Cooling parts

Water pumps
 Fan clutches
 Fan motors
 V-ribbed belts
 Radiator hoses
 Thermostats
 Flanges
 Expansion tanks
 Radiators antifreeze

Drive components

C.V. joint kits
 Boot kits
 Belt drives
 Tensioners and pulleys

Rubber-to-metal parts

Flex discs
 Cardan shaft bearings
 Engine/transmission mounts
 Bushings
 Belt pulleys

Filters

Cabin air filters
 Oil filters
 Air filters
 Fuel filters
 Transmission filters

Damping components

Shock absorbers
 Coil springs
 Strut mounts

Electric and sensors

Relays
 Sensors
 Ignition modules
 Switches

Under its MEYLE brand, Wulf Gaertner Autoparts AG manufactures and markets extremely reliable and highly durable spare parts for the automotive industry.

Their product range comprises 21,000 articles, including more than 750 optimised HD-parts. The core competence of MEYLE lies in components for suspension and steering, rubber-metal parts, brakes and damping systems. Wulf Gaertner Autoparts AG is committed to providing customer-friendly, prompt, modern and expert service, and is supported by a dedicated logistics, sales and distribution network geared towards achieving this goal. Customer service is assured by international subsidiaries and partner companies throughout Europe and Asia, not to mention a multicultural team at the headquarters in Hamburg speaking no fewer than 15 native languages. The easy-to-browse Online Product Catalogue and the TecDoc interface provide search capability across time zones and national boundaries.

Fast and reliable delivery service is ensured by the spacious semiautomatic warehouse in Hamburg with an area of 29,000 square metres and 56,000 pallet spaces, as well as local warehouses of international subsidiaries.

Simply lasts longer.

MEYLE-HD: spare parts of superior quality

The MEYLE brand name instantly calls to mind HD – for a very good reason: The products of the MEYLE-HD brand are developed by in-house engineers at the headquarters in Hamburg (Germany). Original components prone to failure are analysed here on the basis of recall statistics and information sourced from TÜV partners and garages, and identified weak points are eliminated.

The engineers work closely together with respected research institutes and technology partners (e.g. Lübeck Technical University, Helmut-Schmidt University Hamburg, to name a few). This means that MEYLE parts incorporate state-of-the-art solutions that have not always been implemented in OE parts due to shortened development cycles or cost and material constraints.

MEYLE parts are manufactured under the supervision of the Hamburg engineering team at in-house production facilities and by selected partners of an international production network.

In-house engineering expertise is reflected at every stage of product development process from the drawing board to the finished product and is the basis for achieving consistently high product quality.

For this reason Wulf Gaertner Autoparts offers a four-year warranty on all HD articles.

Simply lasts longer.

MEYLE
Products

Guarantee Certificate

A distinguishing feature of MEYLE is our high level of precision, achieved by the application of the most modern manufacturing methods. Our products meet highest quality standards and our suppliers are certified according to ISO 9001:2008 and ISO/TS 16949.

We guarantee that our products have the attributes which we have expressly assured, that they are free from defects and meet state-of-the-art technology. In the event of any flaw in material or production defect in a MEYLE product we will carry out the repair at our expense or replace the product in question. Our products have a guarantee period of 24 months from the date on which our customer installs the purchased product. MEYLE-HD parts have a 48-month guarantee.

In order for any claim to be valid under this MEYLE water pump guarantee the cooling circuit must be flushed prior to installing the MEYLE water pump. For MEYLE passenger car water pumps we offer a performance guarantee of 100,000 miles, which is equal to 160,934 kilometres, in addition to the specified MEYLE guarantee period.

The following general guarantee terms and conditions apply: Complaints must be communicated in writing within a period of 30 days of such occurrence. This guarantee ceases if the item supplied is modified by another party or by the assembly of components of another source, unless the defect has no causal relationship with this modification. This guarantee also ceases if the applicable handling or manufacturer specifications, e. g. on maintenance and replacement intervals, are not complied with.

This guarantee excludes normal wear and tear, and damage caused by improper usage, vehicle application and treatment. This guarantee does not affect the statutory rights of the buyer as set out in § 437 of the German Civil Code if and to the extent that German law is applicable. The date of installation and the purchase of the part must be proven by supporting documents. Any guarantee claim will be processed by the distributor who sold the product.

Gearbox oil change has never been easier!

MEYLE oil change kits for automatic transmissions guarantee all-round car service

Competence increased. Service upgraded. Time saved.

MEYLE offers a comprehensive range of 45 repair-friendly kits for full-service automatic transmission oil change covering nearly 4,000 vehicle applications equipped with popular gearbox types. Upgrade your range of services and benefit from time savings. Supplied in a sturdy case, each kit comes with a full set of the accessory parts required for all-round oil change:

- > Filters
- > Seals
- > Bolts
- > Drain/intake plug
- > Magnets
- > 4-8 litres of ATF gearbox oil, as required

For vehicles with a mileage exceeding 60,000km MEYLE's engineers recommend that the transmission fluid and filters be changed along with the respective components to maximise gearbox performance and service life. Advice: Don't miss this opportunity at the next scheduled service.

On a side note:

MEYLE multi-purpose high-performance oils for manual and automatic transmissions are also available separately.

Assembly instructions for oil change kits for automatic transmission

Einbauhinweis für Ölwechselkits für Automatikgetriebe

- EN** > Adhere to the correct tightening sequence (see picture) and observe the tightening torques.
 > Use oil according to manufacturer specifications and observe the quantity instructions. The amount of fluid supplied is the amount required for transmission oil change. It is not the total fluid capacity.
 > To ensure compliance with professional standards use special tools when refilling transmission fluid and checking the fluid level.
 > Where the automatic transmission converter is fitted with an oil drain screw, additional oil will be required.
- DE** > Beim Anziehen der Schrauben die korrekte Reihenfolge (siehe Bild) einhalten und Anzugsmomente beachten.
 > Öl gemäß Herstellerspezifikationen verwenden und Mengenangaben beachten. Mitgelieferte Menge entspricht Getriebeölwechsel-Service. Keine Gesamtfüllmenge.
 > Fachgerechtes Wiederbefüllen des Getriebes und Füllstandshöhen-Messung mit Spezialwerkzeug durchführen.
 > Modelle mit Ablassschraube am Automatikgetriebewandler erfordern zusätzliches Öl.
- ES** > Al apretar los tornillos, respete el orden correcto (vea la figura) y observe los pares de apriete.
 > Emplee el aceite conforme a la especificación del fabricante y tenga en cuenta la cantidad prescrita. La cantidad suministrada es la necesaria para cambiar el aceite en ocasión del servicio. No es la cantidad total de llenado.
 > Rellene la caja de cambios y controle el nivel del aceite, adecuadamente, con herramientas especiales.
 > Los modelos con tornillo de vaciado de aceite en el convertidor de la caja de cambios requieren más aceite.
- FR** > Serrer les vis dans l'ordre indiqué (voir photo) et respecter le couple de serrage.
 > Utiliser l'huile préconisée par le fabricant et respecter les quantités. La quantité fournie correspond à celle d'une vidange de transmission. Il ne s'agit pas du volume total.
 > Remplir de nouveau la transmission et mesurer le niveau de remplissage, comme il se doit, avec des outils spécialisés.
 > Les modèles avec bouchon de vidange sur le convertisseur de transmission automatique nécessitent un supplément d'huile.
- IT** > Seguire la corretta successione di serraggio delle viti (si veda la figura) e rispettare le coppie di serraggio.
 > Utilizzare olio secondo le specifiche del costruttore e rispettare i quantitativi prescritti. La quantità di lubrificante fornita in dotazione corrisponde a quella necessaria per un cambio dell'olio trasmissione, non rappresenta la quantità di riempimento totale.
 > Per assicurare il corretto rabbocco dell'olio del cambio e quando si misura il livello utilizzare sempre utensili speciali adatti allo scopo.
 > I modelli dotati di vite di scarico nel convertitore del cambio automatico necessitano di una maggiore quantità di olio.
- RU** > При затягивании винтов соблюдайте правильную последовательность (см. рисунок) и учитывайте момент затяжки.
 > Используйте масло в соответствии со спецификациями производителя и соблюдайте инструкции производителя. Входящее в комплект поставки количество масла позволяет произвести полную сервисную замену в коробке передач. Не нужно заменять всё количество вмещающегося в ёмкость масла.
 > Производите повторное наполнение коробки передач и замер уровня наполнения используя специнструмент.
 > Модели со спускной пробкой на трансформаторе автоматической коробки передач требуют дополнительной заливки масла.
- PL** > Przy dokręcaniu śrub utrzymać prawidłową kolejność (patrz rysunek) i momenty dokręcania.
 > Olej stosować zgodnie ze specyfikacją producenta i uwzględnić ilość. Dostarczona ilość odpowiada wymogom serwisowym w zakresie wymiany oleju przekładniowego. Nie podano całkowitej pojemności skrzyni.
 > Do fachowego napełnienia skrzyni i pomiaru wysokości napełnienia olejem wykorzystywać narzędzia specjalistyczne.
 > Modele z korkiem spustowym na konwerterze automatycznej skrzyni biegów wymagają dodatkowej ilości oleju.
- CS** > Při utahování šroubů vždy dodržovat předepsané pořadí utahování šroubů (viz obrázek) a dodržovat utahovací moment.
 > Použít olej dle specifikace výrobce a dodržovat předepsané množství. Dodávané množství oleje odpovídá předepsanému množství při výměně oleje – neodpovídá celkové náplni převodovky.
 > Při plnění a kontrole množství oleje v převodovce používat předepsané přípravky a speciální nářadí.
 > Modely s vypouštěcím šroubem na měniči automatické převodovky vyžadují větší množství oleje.
- PT** > Cumprir a sequência de instalação correcta (ver esquema) e respeite os torques indicados.
 > Usar óleo de acordo com as especificações do fabricante e respeitar as quantidades indicadas. O volume fornecido corresponde ao serviço de mudança de óleo da transmissão. Não representa o volume de enchimento total.
 > Para assegurar a concordância com padrões profissionais, utilizar ferramentas especiais no reabastecimento do fluido de transmissão na verificação do seu nível.
 > Os modelos com bujão de escoamento no conversor da transmissão automática requerem óleo adicional.

AR < عند ربط المسامير القلاووظ يجب اتباع تسلسل عملية الربط (أنظر الشكل) ، ويجب ضبط قوة عزم الربط.
 < يجب استخدام زيت من النوع الموصوف في التعليمات وبالكمية المحددة. كمية الزيت الموردة تكفي الكمية المطلوبة لتغيير الزيت. وهي لا تملأ الخزان بالكامل.
 < ومن أجل التوافق مع المعايير الحرفية فنرجو استخدام الأدوات الخاصة عند إعادة شحن صندوق التروس وكذلك لقياس مستوى الزيت فيه.
 < أي طراز ذو مسمار قلاووظ لتفريغ الزيت من محول أوتوماتيكي لصندوق التروس يحتاج إلى كمية زيت إضافية.
