TECHART

For drivers seeking even more performance, TECHART presents the new **TECHTRONIC Powerkit** for the Porsche 911 (992.2) Carrera. It boosts output from 394 hp to **504 hp**, and torque from 450 Nm to **550 Nm**. Controlled via the standard drive mode switch, the system ensures maximum power on demand - while maintaining full compatibility with all safety and assistance systems. TECHTRONIC Powerkits for Carrera S and Carrera GTS models are in within their final development stages and will be available soon.
